CHARITY CHALLENGE

NEW YEAR SALE 2023

TERMS & CONDITIONS

- Discounts are available from 9am Tues 3rd Jan until midnight Tues 31st Jan 2023 on selected 2023 & 2024 challenges.
- Discounts are only valid for that specific challenge and are non-transferrable.
- Discounts will be deducted from the registration fee. Please note that you cannot pay your registration fee in instalments if you are taking advantage of the New Year Sale promotional code. You will need to pay the reduced registration fee (after the promotional discount has been applied) in one payment at the time of making your booking.
- You must enter the discount code **NY2023** at the time of booking in order for it to be applied to your booking. We cannot apply discounts retrospectively once the booking has been completed.
- The reduced pricing applies strictly to new bookings, and bookings that have already been confirmed are locked into their original price and are not entitled to the reduced pricing.
- Only one discount code can be used at any one time. Cannot be used in conjunction with any other codes.
- Applies only to the challenges indicated on the Charity Challenge website. Prices as advertised.
- Charity Challenge reserves the right to withdraw any challenges from the promotion, or amend these Terms and Conditions at any time without notice.
- Spaces are limited to the challenge maximum group size.
- We are offering the above promotions in good faith in order to meet the minimum numbers required to operate your chosen challenge. Should this minimum still not be met twelve weeks prior to departure, we will apply a small group supplement as advertised via the “small group supplement” link found in the payment options box of the relevant expeditions page of our website. This supplement will be added to your final invoice. Alternatively, should numbers remain too low to operate the challenge, we reserve the right to cancel that challenge and will carry over 50% of the promotional saving to your chosen alternative departure date. Only one promotional code can be used at a time.
