- Contact lenses (plus spare glasses)*
- Baby wipes*
- Travel towel*

DOCUMENTS

- Passport
- Visa
- Tickets
- Photocopy of passport
- Money – see Challenge trip notes
- Copy of travel insurance

If you do not own some of this equipment and do not wish to spend a lot of money on buying equipment then we would highly recommend hiring equipment from our partners at **Outdoorhire**. You can hire good quality outdoor equipment for weekends and often hiring a high-quality piece of equipment is better than purchasing a cheap version

MAKING THE MOST OF YOUR KIT

LUGGAGE AND PACKING

Check out Outdoor Hire's useful tips on how to pack your kit bag [here](#). Remember the general rule that if you don't need it, don't bring it. A soft duffle is easier to find your kit in and less likely to be damaged than a framed backpack and should weigh no more than 15kg, so don't overpack!

On a bike a decent [bum-bag](#) is hard to beat for carrying valuables and essentials. Protect valuables from rain with a small rolltop dry bag.

CLOTHES

A pair of padded cycling shorts will make a huge difference to your comfort and dedicated [cycle gloves](#) help to protect your hands while in the saddle. For all-round usefulness in the great outdoors, Outdoorhire recommend the [Montane Prism Midlayer](#) jacket, it's lightweight, windproof and warm and does everything a fleece does but better. Loose shirt and loose trousers to put over cycle gear will be very helpful, especially when cycling through certain small villages where villagers will appreciate this sign of respect.

SUN PROTECTION

To protect yourself from the sun, use a lightweight, peaked cap that's comfortable under your helmet and at other times wear a wide brimmed hat. On a bike, the back of your neck and the back of your legs are more exposed than usual; don't forget sunscreen on these areas.

HYDRATION

At high temperatures and during exercise your fluid needs increase dramatically and hydration is vital. There are various ways to get the right fluids into your body, with many people using water bladders or bottles. Another alternative is a wide-mouth bottle with a drinking tube adaptor. See Outdoorhire's top tips for hydration [here](#).

HEALTH

Make sure you take a first-aid kit with you, as the group medical kit is designed for emergencies. Zinc Oxide tape is a handy addition as it is often a lifesaver for blisters. In addition, when applying your sunscreen, make sure that you cover the backs of your hands as well as your face and neck. Don't forget to take an SPF stick for your lips as well.
