Empowering communities for sustainable development

kit list

The items listed below are purely recommendations but please pay careful attention to the 'essential' items. See what has been recommended for your community challenge and tick the items that you possess already. We are open to further recommendations upon your return. See what you can borrow, and if you need to purchase any items, remember that you can get a discount on equipment and clothing from various well known suppliers and outdoor shops – for more information, please refer to the document “Kit Discount” which you will find in your member’s area in the “Challenge Pack” section once you have booked and paid your deposit.

Try to use your equipment before you go – particularly your work boots - this will show up any manufacturing faults and whether they are comfortable enough. Good footwear and care of the feet is most important. Well broken-in steel toe capped boots should be worn.

Bring as little as possible but bring everything you need. Travelling light is much less of a hassle, so do not bring things you can do without. If you need to wear jewellery, keep it simple and inexpensive. The general rule is that if you don't need it, don't bring it. Bring clothes that wash and dry easily (jeans take forever to dry). Clothes should fit comfortably but should not be baggy.

Your main bag should not weigh more than 20kgs. Your hand luggage should not exceed 5kg and maximum dimensions of 55x35x25cms. Please make sure you pack all your bags yourself, and do NOT under any circumstances take any items through customs that are not yours or that you have been asked to deliver for someone else. If possible, lock your bags before you check them through at the check-in desk. When packing, think carefully about what you are packing in your hold luggage as, once you have handed it over at check-in, you will not see it again until you arrive at the other end. Don't pack things you will need again before or during the flight – such as medicine - and make sure you have an adequate supply. Keep cash, passports and house keys in your hand luggage. Also, if taking a long flight, it is sometimes a good idea to take toiletries such as toothbrush to freshen up on the long journey. Don't pack valuables, cash, fragile or perishable items in your hold luggage. Airlines and insurance companies will not accept liability for them. When packing, we recommend that you take as much as possible of your *building clothing* in your hand luggage. This is to ensure that in the unlikely situation that your bags do not arrive at your final destination, you are still able to make a start on the building while we relocate any missing baggage.

item	take it?
baggage	
Soft bag or rucksack	Yes
